- Mission : A proactive and creative club with new concept, in refreshing and bolstering the gamut with excellence recreational offering at our club. Also to set in place a forward-thinking strategies and a prudent management to maintain a strong balance sheet.

Message:

It will be an immense responsibility to take on as a Committee Member of the Club. A quote from Professor Michael Spence, Nobel Prize Winning Economist : “What Matters Most is How People in Power Perform, and Not So Much How They Got There.”

Strong Leadership is the foundation of our success through personal accountability and responsibilities. We believe in exemplary leadership based on personal example, basic trust and team spirit.

It is the responsibility of the leader to build a cohesive and happy team. This is often very challenging, both in a professional and personal perspective. We are from different social cultures, different discipline and different sectors of society; hence we need to be cohesive and happy, and it is very helpful to have collective brain power in the team for the value of honesty, integrity, commitment and teamwork.

We strongly believe in honesty and integrity, so as to maintain the reliability and credibility.

As we move forward, we must renew our commitments, by raising our own sights higher and further. We will have to work always with your interests at heart. Every decision we take is calculated to protect your interests individually and as a whole. It is for you, that Singapore Swimming Club exists.

Supported by a strong team with good minds and with the right heart, we can exercise our leadership confidently; secure with our belief that the pursuit of excellence for a social purpose is unrivalled as the highest standards of meaning in our lives.

We are a great “Premier Family Club where the People make the Difference” ; and
The Best is Yet to Come.
